

Why Brokerages Are Investing in the REIS™ Designation

Give your agents an edge. Position your brokerage for the future.

The Business Case for Broker/Owners

The Challenge:

- Transactions are down across the board
- Agents are burning out chasing unqualified buyers
- Brokerages are struggling to retain and motivate talent

The Opportunity:

- Investor clients are still buying — often multiple times per year
- REALTORS® trained in investment strategies are closing deals others miss
- Brokerages offering education and leverage are winning the recruiting game

What the REIS™ Program Delivers

For Agents:

- Specialized knowledge to work with real estate investors
- Tools, calculators, and scripts to confidently pitch investment deals
- A real designation (not just a certificate) to boost authority
- Repeat business and passive income guidance
- The chance to build *their* portfolio while growing your office's volume

For the Brokerage:

- Higher-producing agents who require *less* handholding
- Stronger recruiting message: “We train you to build wealth, not just close homes”
- A retention hook: lifetime designation, mastermind group, and investor deal flow
- Optional co-branding or licensing models available

Revenue share or affiliate commissions from agent enrollments
